Mr. Femi Osibona  
Fourscore Heights Limited,  
44BCD Gerrard Road,  
Ikoyi, Lagos State.

**RE: PROPOSED GERRARD TERRACES FOR FOURSCORE LIMITED**

This letter is to formally inform you of the withdrawal of our structural consultancy service from the above named project. We arrived at this decision due to the fact that we no longer share same vision with you as our client in terms of how the project is being executed.

We can guarantee the integrity of the first two buildings and also works done up to the fourth floor of the third building supervised by us provided specifications have been met in terms of the required concrete strength. This we do not have control over as we do not have the concrete cube test results for each stage of the building till date, Also, kindly note that we are not taking responsibilities for any other construction errors that may have occurred over time on the project.

Furthermore, we request that our company's name and logo be removed from the project board and also kindly notify all necessary approving authorities of our withdrawal from the project.

We regret this decision and the lost opportunity to do business together. We look forward to future cooperation in other projects.

Yours faithfully,

Muritala Olawale  
Managing Director  
For: **Prowess** Engineering Limited
